A PASTOR'S PROTEST.

Mr. Beecher Raises His Voice in
Vindication of Governor
Cleveland.

His Address to the Independent
Republicans of Brooklyn
Last Night.

The Governor's Letter to Mrs. Beecher—An
Eloquent and Touching Appeal Against
Scandalmongery—Full Details of the
Blaine-Joy Episode—A Challenge Ac-
cepted.

By Telegraph to the Post-Dispatch.

New York, October 23.—At the Brooklyn Birk-

land evening Henry Ward Beecher told a crowded

audience that he was supporting Blaine in

preference to Blaine. The meeting was held in

the amphitheatre of the Brooklyn Independents.

The audience, though somewhat damp when the meet-

ing began, was enthusiastic as the meet-

ing went on.

“I have written to you to forgive me if your kind and

cunning has led me into any impropriety.

Very sincerely,

GROVER CLEVELAND.

[Signed]—His eyes were red and his voice grew husky.

Handkerchiefs were raised to the faces of many of the audience, as Mr. Beecher's audience always are.

Mr. Beecher began by ex-

pressing his regret that he found himself com-

mitted to oppose the Republican nominee.

VICTORIA'S VOICE.

The Queen's Speech at the Opening of the English Parliament.

A Shocking Railroad Accident in Canada—Serious Complications Between the Belgian King and Cabinet—Mr. O'Brien's Inflammatory Speech at Berlin—The Brunswick Succession—Foreign News.

LONDON, October 22.—Gladstone has written a long letter to the St. Asaph Diocesan Conference on the subject of the "Disestablishment of the Church of England." In it he counsels the churchmen to be tolerant of each other's views and to conduct their controversies with charity, moderation, mildness and reserve.

PARLIAMENT RESEMBLED TO-DAY. Following is the Queen's speech at the opening of the session: "My Lords and Gentlemen—I have brought you together to enable you further to consider the great subject of representation of the people. I continue to maintain relations of amity with all foreign Powers. The information from the Soudan includes painful uncertainties, but the energy, courage and resource conspicuously displayed by General Gordon in his successful defense of Khartoum deserve my warm recognition. The advance of my troops to Dongola has for its object the rescue and security of that gallant officer, and of those who have so faithfully served with him. I have sent a deputation to Egypt to promote the further improvement of the affairs of that country. I give you my support to the Egyptian government in the difficult financial position it is placed through the failure of the recent conference. I regret the occurrences in the Transvaal, and am considering, with the Cape Government, means to secure the observance of the convention. Gentlemen of the House of Commons the operations in the Soudan render it necessary to ask of you further pecuniary provision. My lords, and gentlemen, a bill for extension of the Parliamentary franchise will be at once introduced. May the blessing of God rest upon your labors."

LORD NORTHBROOK'S RETURN. Lord Northbrook will return to England from Egypt by way of Paris. While in that city he will have an interview with Terry.

The Dominion. MONTREAL, October 22.—The express train which left here last night ran into a cattle and freight train, eastbound, at Point Claire Station. The engines of both trains are reported to be destroyed. Alexander Stewart, engineer of the express train, was killed, and his fireman seriously injured, both legs being broken. A number of passengers were slightly injured. George McMaster, commercial traveler of this city, was badly hurt about the head and eye. A large number of cattle were killed. The loss of property is estimated at over \$100,000.

The freight had been switched on to a siding to allow the express to pass, but the engineer overran the switch allowing the engine to protrude on the main track. A moment later the express came rushing on, and the engineer and fireman of the freight, seeing it was too late to avoid an accident, jumped from the train and were instantly killed. The fireman was unable to jump from the engine and had both his legs broken when the two trains collided. The engines were being interlocked. The boiler burst, and was smashed about in all shapes. The freight cars were torn to pieces, and the bodies of 15 sheep, all of which were killed, were burned to charcoal.

TORONTO, October 22.—Snow fell in various parts of Ontario Monday. At Brussels six inches fell, and it is still snowing.

The Cholera. MADRID, October 22.—Two deaths have occurred in this city suspected to have been caused by Asiatic cholera.

ROME, October 22.—During the past twenty-four hours there were sixteen fresh cases of cholera at Naples and one death. At Genoa no new cases or deaths reported.

A CASE IN FRANCE. PARIS, October 22.—The report of the existence of cholera cases at Yport in the department of the Lower Seine is confirmed. It was brought there by a sailor from Toulon. Precautions have been taken to prevent the spread of the disease.

France. PARIS, October 22.—Gounod, the composer, last evening performed before the papal nuncio, and a number of select friends in the oratorio of "Morts et Vifs," which he dedicates to the Pope.

PUBLIC GAMING HOUSES. Le Courier du Soir says: "The establishment of public gaming houses is seriously contemplated in Paris."

FOOTED WITH CHOLERA FUNDS. MARSEILLE, October 22.—Daumas, a member of the municipal government, has fed with 17,000 francs, which was intended for distribution among the cholera sufferers. A warrant had been issued for his arrest.

BERNARD'S CONDITION. The Figaro says that Bernards is in a very weak condition.

Spain. LUGO, October 22.—The King to-day gave an audience to Richmond, the newly appointed American Minister, who presented his credentials.

Russia. ST. PETERSBURG, October 22.—The authorities of the University of St. Petersburg announced that no more scholarships will be offered until the term among the students has subsided. The students threatened to renew the disorders.

Ireland. CORK, October 22.—William O'Brien, Member of Parliament for Mallow, delivered a lecture here last night on "England's Lost Opportunities." He expressed his joy at the Removal of Trevelyan from the Chancery Secretariate, and said, if Irishmen stood loyally by Parnell, Earl Spencer, the Lord Lieutenant would soon follow him, and possibly English rule also.

THE MAN'S OPINION. DUBLIN, October 22.—The Mail regards the removal of Trevelyan as an evidence of the conclusion of another "Kilmalham treaty" between Gladstone and Parnell.

The Franco-Chinese War.

PARIS, October 22.—Prime Minister Ferry and Captain Fourrier, who negotiated on the part of France the Tela Tala treaty, and Gen. Millet, late commander of the French forces in Tonkin, have been invited to confer with the Tonkin Committee of the Chamber of Deputies.

Germany.

BERLIN, October 22.—The Emperor William and the Crown Prince Frederick William have arrived here.

THE BRUNSWICK SUCCESSION.

The question of the Brunswick succession had been discussed by the Bunderstat, and a majority of the body resolved not to admit the claims of the Duke of Cumberland to the throne.

The North German Gazette says eleven out of the nineteen districts of Hanover will return the Guelph deputies, whose programme, according to Deputy Goets, since Prussia will not spontaneously offer the Hanoverian throne to the Duke of Cumberland, is the use of foreign aid.

APPLICATIONS TO BRING ABOUT A FAVORABLE RESTORATION. The Gazette considers this declaration reasonable.

BURNED TO DEATH. EIGHT PERSONS BURNED TO DEATH IN A FIRE IN WEST PHALIA.

NEGOTIATIONS WITH SPAIN.

The Tagblatt says that Germany has opened negotiations with Spain in relation to West African Affairs.

THE KING AND CABINET.

BRUSSELS, October 22.—The King, in conferring with Prime Minister Malon, requested the withdrawal from the Cabinet of Ministers Jacobs and Woeste. After the Cabinet Council had considered the request Malon informed the King that the whole ministry must stand or fall together. The King replied he would consider what course to pursue. The King desired the coalition of ministers in order to have a vision of the estimates and the national military reserve in the spring. The King has summoned to the palace M. Pierne of the party of the Left Center. The Cabinet has called a meeting for to-day of the Senators and Deputies belonging to the party of the Right.

CLOSED THEIR DOORS.

Banking House of H. D. Cooke & Co. Suspended.—The News in Wall Street.

WASHINGTON, D. C., October 22.—The private banking house of H. D. Cooke & Co. of this city displayed the following notice at the usual opening hour this morning: "Owing to our inability to meet pressing demands, we deem it better for the interests of all concerned to suspend temporarily."

The firm consists of H. D. Cooke of Washington City and A. G. Campbell of Kansas and Utah. The latter is not in the city and Mr. Cooke has remained at his residence this morning. From Maj. John W. Corson, confidential clerk of the house, it is learned that the total indebtedness of the firm is \$170,000, of which \$60,000 is fully secured. The liabilities are only due to Washington creditors, there being none in New York and Chicago. The indebtedness to all the Washington bankers is abundantly secured. Maj. Corson says there is every reason to believe the firm will be able, with the aid of some indulgence and time, to pay all liabilities in full.

It is also learned at the bank that the suspension resulted from unfortunate investments dating back a number of years. The firm's resources, liabilities and assets are now approximately equal, having steadily been paid off, since that time, until they are now reduced to \$140,000. The firm has at this point, however, when remaining assets are given preference for investment purposes, a sum of \$100,000.

The business committee, which has received the various reports of the standing committees and the executive committee, reported that the practice of making no charge to customers for containers and drayage was unbusiness-like, and should be condemned; that the firm should abandon such proceedings; that the committee on practice of law should be directed to revise the list of goods now under the heading of containers and drayage and should remove all those therefrom which are not the control of their own shipping and traveling salesmen and tax on spirits be continued.

THE BLOODY TUNIC.

Mr. Blaine flourishes that fragrant vestment at Terre Haute.

TERRA HAUTE, Ind., October 22.—Mr. Blaine left Evansville at 8:30 this morning, having before him a long day's ride to Lafayette.

The first stop was at Sullivan, a small station, where there were about 2,000 inhabitants. Mr. Blaine was received with the usual enthusiastic manner.

At Terre Haute there was a great demonstration. As the train came into the city the steam whistles in the factories and on the locomotives sounded a welcome and when it reached the depot the crowd received the arrival of the chief.

Mr. Blaine, accompanied by a reporter, carried out the recommendations of the resolution.

Secretary A. B. Mather.

Mr. Blaine is not so completely

engaged as to enable him to give up his practice entirely for politics.

James Richardson.

He said that the Campion plan was a failure and was impracticable.

Instead of a collapse of the party, another who frequently made big money but made lamentable failures.

Mr. Warner's paper was followed by an article on the subject of what plan shall be adopted.

A FAIR PROTECTIVE TARIFF.

The National Democratic Platform is endorsed by Grover Cleveland.

"We believe that LABOR is best regarded where it is freest and most enlightened. We therefore desire that it be protected and cherished."

"The Democratic party insists that it is the duty of this Government to PROTECT with equal fidelity and vigilance the rights of its citizens native and naturalized, at home and abroad."

"We demand that of our countrymen freedom for AMERICAN LABOR to realize its mission to the end that these United States may compete with unimpeded powers for the piemont among nations in all the arts of peace and fruits of liberty."

"The great issue of reform and change in administration is submitted to the people in calm confidence that the popular voice will pronounce in favor of new men and new and more favorable conditions for the growth of industry, the extension of trade, the employment and due reward of Labor and of capital and the general welfare of the whole country."

"In making reduction in taxes it is not proposed to injure any one class, but rather to serve the service of the entire nation. From the foundation of this Government taxes collected at the Custom House have been the chief source of Federal revenue. Such taxes must continue to be. Moreover, many industries have come to rely upon legislation for successful continuance, so that any change of law must be at every step regardful of the labor and capital thus involved; the process of reform must be subject in the execution to this plain dictate of justice. All taxation shall be limited to the requirements of economical government. The necessary reduction in taxation can and must be effected WITHIN THE ABILITY TO COMPENSATE SUCCESSFULLY FOR FOREIGN LABOR, AND WITHOUT IMPOSING LOWER RATES OF DUTY THAN WILL BE AMPLIFIED TO COVER ANY INCREASED COST OF PRODUCTION WHICH MAY EXIST IN CONSEQUENCE OF THE HIGHER RATE OF WAGES PREVAILING IN THIS COUNTRY."—Platform Unanimously adopted by the National Convention of the Democracy at Chicago.

The condition of the weather is reflected in our advertising columns, which fairly overflow with varied and tempting announcements suited to the season. The Post-DISPATCH is the organ of the advertisers.

MAJOR EWING would lose nothing by issuing a public order that no clerk in any department under his control should be molested in any way for refusing to take notice of the Republican City Committee's beggar circular.

We copy from our esteemed contemporary *Le Patriote* a few words well spoken in appreciation of Mr. GLOVER. *Le Patriote* is the organ of the French population of St. Louis and it wholly represents their best sentiments.

POHLMAN's idea is that the poor clerks in the City Hall are the people who ought to pay the expense incurred by Millionaire MCLEAN in buying the Ninth District. POHLMAN's intellect has been unsettled by too much statesmanship.

We are indebted to the Kansas City Star for several very flattering notices of the unsoundness and inconsistency of our position on the tariff question. The Kansas City Star shines brightly in the galaxy of free-trade organs, but in its own deistic it is supporting a wicked Protectionist against a Democrat, who voted for the Horizontal Tariff.

ITALY and Switzerland may withdraw from the Latin Monetary Union and adopt the gold standard, but it does not follow that it will be dissolved by the withdrawal of its two weakest members, France, with \$245,000,000 in gold and \$65,000,000 in silver, maintained as a legal tender at a par far above its bullion value, cannot afford to demonetize so large a part of her coin base.

The people of Carthage had a little way of impressing on their military leaders a proper sense of their responsibility. A general who lost a campaign was put to death. We are glad that this custom does not prevail in modern political life, as some of the districts which are now trying to re-elect the last session's misleaders in Congress would instead be scattering the flowers of regret over their new-made graves.

BUTLER's declaration of principles is worthy of JEFFERSON and JACKSON," whines the New York Sun. But unfortunately his declarations in this campaign and his votes in Congress are in startling contrast. By the latter he proved himself a willing tool of the monopolists and made himself a millionaire. By the former he merely advertises his own insincerity, because he cannot hide the fact that his real platform is the palce provided for him by GOULD and HUNTINGTON, whose candidate he is trying to elect.

"THERE is but one truly Democratic Presidential candidate before the people, and he is BENJAMIN FRANKLIN BUTLER," says the New York Sun. The other man who stood with General BUTLER for the monopolists and made himself a millionaire. By the former he merely advertises his own insincerity, because he cannot hide the fact that his real platform is the palce provided for him by GOULD and HUNTINGTON, whose candidate he is trying to elect.

He sees that CHANDLER also has discovered channels in which he can make himself useful. More wonderful still, he has hit upon a plan of

making our navy useful. According to the New York Times he has ordered the North Atlantic fleet to Brooklyn Navy Yard, for repairs, and hopes that, by employing all the men who can find elbow room to work there, he can, between now and the November election, get the entire fleet into such a sea-worthy condition as to survive collisions with rowboats and canoes. The activity in the navy yard is said to be unprecedented, and is expected to have a very important effect on the return from the election in that vicinity.

WHAT MIGHT HAVE BEEN.

The political battlefield ground which now covers the whole Union was, six months ago, confined in the narrow limits of the Capitol at Washington.

Then and there, as now and everywhere, two parties stood facing each other preparing for the contest at the polls next month; the Republican party on the defensive in its entrenchments of power, calm, confident, harmonious and firm; the Democratic party looking to its leaders for guidance.

A SUCCESSION.—The law bearing on your case states that a man must be living in the precinct twenty days in order to vote. But if you state the facts relative to the time of your moving to the Recorder of Voters, the decision will remain open with him.

AN EVENING FIRE.

The Southern Barbed Wire Company Burned Out.—The Loss Put at \$20,000.

The works of the Southern Barbed Wire Company, on Second and Taylor streets, burned last night, involving an aggregate loss of \$20,000. The fire began by the swinging of a defective lantern over a barrel of benzine. The vapor seemed to ignite, and without any actual contact between the light and the liquid, the barrel was at once enveloped in flames. The room was full of inflammable substances, and the blaze spread so quickly that some of the employes had a close call for their lives. One of these, J. E. Butler, was badly burned while bravely fighting the fire with a Barber's soap.

The men, Frank and John, were shot in the second floor, and both burned. He jumped to the window; he broke no bones, but his burns are very severe. Two alarms were turned at once, and seven engines responded, but the fire had taken hold of the building so rapidly that the energies of the Department were necessarily taken up with confounding the conflagration to the buildings it had already seized. This month after paying this assessment, what can be done to help him?

Mr. C. W. James of 234 St. Louis is deceased. It was erected at a cost of \$12,000, and was fully insured. The insurance company paid off the policy, and the loss was \$10,000.

The fire began by the swinging of a defective lantern over a barrel of benzine. The vapor seemed to ignite, and without any actual contact between the light and the liquid, the barrel was at once enveloped in flames. The room was full of inflammable substances, and the blaze spread so quickly that some of the employes had a close call for their lives. One of these, J. E. Butler, was badly burned while bravely fighting the fire with a Barber's soap.

The men, Frank and John, were shot in the second floor, and both burned. He jumped to the window; he broke no bones, but his burns are very severe. Two alarms were turned at once, and seven engines responded, but the fire had taken hold of the building so rapidly that the energies of the Department were necessarily taken up with confounding the conflagration to the buildings it had already seized. This month after paying this assessment, what can be done to help him?

Mr. C. W. James of 234 St. Louis is deceased. It was erected at a cost of \$12,000, and was fully insured. The insurance company paid off the policy, and the loss was \$10,000.

D—D UNCERTAIN.

Whether Bill Morrison Will be Re-Elected.

Disaffection Among the Alton Democrats—The Factory Workmen in East St. Louis Also Disaffected—A Morrison Dodge.

Within the last week there has come to light a very interesting fact. It relates to Mr. Morrison and his supporters, and shows the extreme to which their partisan feeling is driving them. During the campaign of 1884 the charge of prohibition tendencies was brought against Gen. Grant, and the Morrison faction, and the following morning the Morrison printing press in Belleville turned out circulars which were carried throughout the district and posted on fence, gate-post and tree-box in every town and at every cross-road. The sense of the charge was that Mr. Morrison was a Prohibitionist, and if the Germans voted for him, they would cease to enjoy their Sunday lager. The effect of this was to bring out a number of men who had left to contradict it. Appreciating the success of their move, and realizing the desperate condition of Mr. Morrison, his supporters, including the Belleville press, determined to repeat their action this year, and are now making preparations for the circulation of these posters a day before the election.

A traveling man had occasion a day or two ago to go to the office of the Belleville Daily News-Democrat, which is the Morrison organ, and made arrangements with the editor to have a proof of a circular, and, attracted by its appearance, read through the right side of it. It was a post office information sheet, and the right side of the paper was filled with the names of the supporters of Mr. Morrison, and that Mr. Morrison's friends would be to the right of the paper. The editor left to contradict it. Appreciating the success of their move, and realizing the desperate condition of Mr. Morrison, his supporters, including the Belleville press, determined to repeat their action this year, and are now making preparations for the circulation of these posters a day before the election.
